

## Berkeley County Purchases North Island Property

In June 2024, Berkeley County purchased 115 acres on Daniel Island for use of a future public waterfront park. The property, known as the North Island Tract, was purchased from the South Carolina Ports Authority for approximately \$4 million.

The project is being funded, in part, by the [Berkeley County Greenbelt Program](#), established through the One Cent Sale Tax referendum voters approved in November 2022, along with several other contributions:

- Berkeley County Greenbelt Program: \$1.75 million
- South Carolina Conservation Bank: \$1 million
- South Carolina Resiliency Fund: \$1 million
- Daniel Island Community Association: \$250,000

The Berkeley County Greenbelt Program is funded through the 2022 One Cent Sales Tax referendum, which voters approved in November 2022. It is estimated the referendum will bring in \$58.7 million for Greenbelt projects.
